

## REMARKS

Applicants kindly thank the Examiner for the opportunity to discuss the terminal disclaimer in this case with her on August 12, 2004.

Claims 11-33 are pending in this application. Claims 1-10 have been cancelled. Favorable reconsideration is requested.

The Examiner has rejected claims 11, 14-18, 21, 23, 24, 25, 26, 29, 30 and 33 under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-5 of U.S. Patent No. 6, 355,021 B1. The Examiner has rejected the terminal disclaimer filed with the Amendment dated March 22, 2004 for failure to comply with 37 CFR 1.321 (b) and/or (c).

Applicants have submitted herewith a terminal disclaimer to overcome the rejection based on the nonstatutory double patenting grounds set forth by the Examiner. Applicants have also submitted a copy of the Power of Attorney filed with the parent application 09/115,340, from which the present application is a continuation, in support of compliance with 37 CFR 1.321 (b). The fee for the terminal disclaimer was submitted with the previous response, mailed March 22, 2004. Applicants assert that claims 11, 14-18, 21, 23, 24, 25, 26, 29, 30 and 33 herein are patentably distinct from claims 1-5 of US Patent No. 6,355,021 B1 but have filed a terminal disclaimer in order to expedite the allowance of the pending claims.

Applicants filing of the terminal disclaimer for claims 11, 14-18, 21, 23, 24, 25, 26, 29, 30, and 33 should also overcome the objection to claims 12, 13, 22, 27, 28, 31 and 32. With the filing of the terminal disclaimer for 11, 14-18, 21, 23, 24, 25, 26, 29, 30, and 33, claims 12, 13, 22, 27, 28, 31 and 32 no longer depend from rejected claims.

Applicants note that claims 19 and 20 have not been allowed or rejected in this Office Action. Applicants assert that claims 19 and 20 are also in condition for allowance with the filing of the terminal disclaimer.

Having carefully addressed all the objections and rejections of the Examiner in the June 21, 2004 Office Action, it is respectfully asserted that the claims properly

define the invention and that the invention is both novel and non-obvious. Allowance of the present claims is earnestly solicited.

Should the Examiner wish to discuss any of the above submissions in more detail, the Examiner is asked to please call the undersigned at the telephone number listed below.

Respectfully submitted,
